Establishment of a protected area within the troop transport aircraft C-119 with a view to allowing the public to visit the interior.

Appeal for funds

Our association is active on the Cinquantaire site of the “War Heritage Institute” (abbreviated to WHI), and more precisely in the Hall de l’Air, where it participates in the restoration of old aircraft and the management of archives to do with aviation.

Among the exhibited aircraft is a Fairchild C-119, used by the Belgian Air Force from 1952 to 1973 for transporting troops and equipment and also for humanitarian missions. One of the two remaining examples in Belgium is preserved in the Hall de l’Air in the Cinquantaire Museum. This aircraft is well known to a number of Belgians : those who evacuated the Congo in 1960, the parachutists who used it during their military service and their subsequent engagement with the Army, as well as the TV viewers who had watched the news reports about the humanitarian missions.

The interior of the C-119 is actually closed to the public for reasons of security and the preservation of the aircraft.

At one time the aircraft hold was accessible, visits achieving great success both with adults and children alike. The project put forward by our association, with the support of the authorities of the WHI, consists of the establishment of a protective corridor for visitors, a defined area for photographic exhibits, mannequins and objects recalling

the missions undertaken with the C-119. It is our way of paying homage to the pilots and parachutists who flew with this mythical aircraft.

Our team of volunteers have considerable experience in the reconditioning of old aircraft, and it will call in assistance from specialist companies for the most technical aspects, in order to arrive at a solution that guarantees its longevity.

The budget for this project is 27600 Euros. We can only, in small part, cover this cost ourselves, and consequently we are launching an appeal for donations with the objective that the new visitor's access is ready for the end of 2018.

The Fondation Roi Baudouin brings its collaboration to the project. Donations of more than 40€ per year made to the Fondation benefit from a tax reduction of 45% of the sum effectively donated.

Payments should be made to the following account :

**BE10 0000 0000 0404 (BIC : BPOTBEB1)
Fondation Roi Baudouin
with the following structured communication : 128/2982/00054**

(this is the AELR's project number given by the Fondation)

We thank you in advance for your support.

Ph. DOPPAGNE
Président
